EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Mukai on 24 August 2005.
3. The application has been amended as follows:
4. Please cancel Claims 3, 4, and 6-11.

REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:
6. Claims 1 and 5 are allowable.
7. Applicant's amendments have narrowed the scope of the claimed subject matter.
8. The polymer compound of Claim 1 is not taught or suggested by the reviewed prior art, nor by the prior art of record. Particularly, the claimed polymer structure is not taught or suggested by Osamu JP 2001-131445. In Osamu, at Formula 6, for example, bonding of successive -CH₂CH₂O- units occurs through the divalent oxygen atom of the -CH₂CH₂O- unit. In contrast, in applicant's compound, as represented in applicant's formula of the polymer structure at page 5 of the Specification (Formula 1), bonding of successive units occurs through tetrahedral carbon atoms, e.g., the carbon also bonded to L¹ and R⁴ and/or the

carbon also bonded to L² and R⁶. Thus, the molecular structure of the claimed polymer compound, as now claimed, does not encompass Osamu.

9. Claims 3, 4, and 6-11, which had been withdrawn from examination, have been canceled.
10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
